# Top Safety Program Challenges
Electrical Industry

The electrical industry is a high-risk industry where workers are exposed to many potential dangers on a day-to-day basis. This includes shocks, burns, potential fires, and many other risks.

Priority Ranking

Submit to Organization

At least 30,000
incidents due to shock occur every year in the United States[1]

My Training Progress

Course Content

31% of fatal injuries
took place at an industrial site[2]

Top Safety Program Challenges in the Electrical Industry

A lack of transparency caused by document decentralization

A lack of on-site safety participation from employees and contractors

Difficulty with training tracking

Organizations can better protect their employees and mitigate risks on-site with an effective and robust safety program

Fall Protection (eLearning)

How a Digital Solution Can Help Overcome These Challenges

Full Visibility
Centralized data grants 360-degree visibility into any gaps and deficiencies in your safety program.

All in One Solution
All information in one platform streamlines communication from boardroom executives to front-line workers across multiple sites.

Mobile Friendly
A mobile application empowers every employee to take safety into their own hands.

Track Your Courses
Access to eLearning courses and training tracking helps ensure training certifications are up to date and all courses are completed on time.

Hart-Well
ELECTRICAL COMPANY LIMITED

"The part of our program that was causing a disconnect was the documentation aspect – getting that paperwork from head office to the field and back was an issue. Alcumus has solved our documentation issue. Everything is available to everyone, all the time."

Frances Deane
Hart-Well Electrical Co. Ltd.
